ESP

\$15 Million Investment to the Emergency Services Program

Emergency shelters are the starting point to gaining long term stability. With lodging on a short-term basis (usually less than three months) emergency shelters provide a homeless individual or family with a clean, safe place to stay. Strengthening the statewide Emergency Services Program with an increase of \$15M per biennium is a smart investment because where we live impacts every aspect of our lives. When everyone has a place to call home, children learn, workers earn, seniors thrive, and communities prosper.

MFIP

\$200/Month Increase to the Minnesota Family Investment Program

The Minnesota Family Investment Program (MFIP), is the state's welfare-to-work program. MFIP cash assistance hasn't increased since 1986. MFIP provides employment support and temporary cash assistance to children and their parents who are striving toward full-time employment. Many low-wage working parents do not qualify for unemployment insurance when they lose work. Instead, they must turn to MFIP for time-limited help.
